

BISBEE ROAD!

**Southwest New Mexico
to the Front.**

**The "City of Windmills" Will
Get the Road.**

**Interesting Notes About the Adjacent
Mining Districts.**

FIRE AT DEMING.

Special Correspondence.
Deming, N. M., June 19.—The people of Deming are now thoroughly satisfied that the Bisbee road will be built to that town from Columbus and Gold Hill. Mr. Smith, who is one of Deming's prominent business men, has presented a series of good reasons why the road will be built to Deming. He says:

"The building of the Bisbee road out from Deming is in no sense to spite El Paso, but the decision is based on substantial business conditions."

"First—it will cost the company \$2,000,000 less to come to Deming than to go to El Paso.

"Secondly—they can come to Deming one year sooner than they could reach El Paso.

"Third—they can save several hundred thousand dollars in the transportation of their building material, and as much more in transporting their mine products from Mexico and Arizona to their western connections at Deming.

"Fourth—they find terminal facilities at Deming 20 miles more favorable than at El Paso. The cost to the company on entering the city, their terminal and depot grounds and right of way is nothing."

"Fifth—the great abundance of pure water, the beauty of the place and the delightful climate will make Deming more attractive for general headquarters."

"Sixth—they may at some time desire to establish a large smelting plant convenient to the great mines that they have recently acquired at Deming, and last, but not least, the Deming people have been fully ready and willing to do all they could to extend every aid in their power to advance the interest of the company. They want the road to come to Deming and they are not afraid or ashamed to speak out for the most part."

In view of the fact that Mr. Burch, who with other Deming merchants are working to secure the Bisbee road, it was learned that a gentleman who is thoroughly up in railroad matters as well as being fully posted on the conditions and environments of all railroads in the Southwest, ventured the opinion that the Bisbee road can save enough by operating its line to Deming in less than two years' time to construct and equip a line from Deming to El Paso. He further says that the question of reaching this water supply and cheaply can be accomplished by his connections with the Santa Fe and the Colorado & San Juan, which have an eye single to their own interest to finance a great feeder like the Bisbee road.

The same gentleman gives it as his opinion that no road will be built on from Stein's Pass by the Southern Pacific and that he has no longer his option upon the single line.

The Southern Pacific people are too good business men to entertain for a moment any such an idea as "throwing their money at the birds" on any such an impractical scheme as that. He points out that the railroad scrap iron, timber, etc., give him a sensible business-like understanding between these great competing lines.

THE ADJACENT MINES.

It was learned, in a talk with B. J. McKeyes, J. A. Mahoney, Sigma Linda and other Denver citizens that the state of Arizona's Amalgamated Copper Company is still continuing development on a large scale. They have in the past eight months on covered immense bodies of good pay ore and the good work still goes on.

It is hard to predict at this time the extent and value of this great production, but it is safe to say that among the copper producers of the country is a foregone conclusion.

The Clifton Copper company, located in the same district, is comparatively a new property, but is making a showing that is a surprise to all the mining men of the West. No such high grade copper ore has ever been uncovered in this country with the same amount of development. This property will be on the airfield paying off in less than ninety days.

The old Hanover and Brasgau groups in the same district recently came into the hands of the people of New York, aggregate over thirty claims, many of which are patented. At least three of these are already good producers and under the systematic management they will soon be equal to the other great miners of the country.

Besides these developed producing mines there are many others in the same district which show up remarkably well.

The large mountain mining districts is also coming to the front again and a great deal of development is being done.

Two leaders on the part of Deming have already made a comfortable stake notwithstanding the company held them up for 25 per cent royalty.

DEMING LEGAL.

The people of Deming are loyal to Governor M. A. Smith, whom his appointment as governor won the people of the city of Winslow promptly sent him a telegram of congratulations. It is understood today that quite a large number of Deming people will go to Santa Fe to take part in the inauguration on Saturday.

About 10 o'clock this morning the people of Deming were treated to a pretty big show. The sleeping house, on the main street from the depot to the town, and the several adjoining frame houses, were totally destroyed by fire. The fire is a mystery.

HILLSBORO.

From the Advocate.
Henry Schmid, who has been visiting in town the past month, left for Albuquerque.

John Martin, the crazy Mexican who murdered John Trujillo, was sentenced by the court and will be placed in the insane asylum at Las Vegas, as soon as there is a vacancy in that institution for him.

He was the prime suspect in the killing of John Trujillo, who was found dead in his home in the hills above the town, and the人民 were greatly shocked by his conduct.

He was sentenced to life imprisonment for the killing of John Trujillo, who was found dead in his home in the hills above the town, and the人民 were greatly shocked by his conduct.

He was sentenced to life imprisonment for the killing of John Trujillo, who was found dead in his home in the hills above the town, and the人民 were greatly shocked by his conduct.
